Members of Minden Fire Department attempt to control the flames during an early Monday morning fire. The blaze at a residence on Highway 121 south of Minden was of undetermined origin. The structure, home of the Butler family, was destroyed in the conflagration.

Fire destroys Butler home

An early morning fire destroyed a home on Highway 121 south of Minden on Monday. No one was injured in the blaze but the fire advanced so rapidly that none of the contents could be saved.

The house was the residence of Jim and Jennie Butler, their 12 year old daughter Helen and four year old son Steven.

Just before 8:30 in the morning Mrs. Butler noticed smoke coming out of a wall plug in the bath-

room. Thinking that an electrical fire had started she attempted to enter the basement to shut off the main power supply but discovered that the basement was full of smoke. After placing an urgent phone call to the fire department Mrs. Butler picked up her son and rushed out of the house. The daughter had already left for school.

By the time the fire department had reached the home, which is located (more on page 2)

Gull river clean-up proposed

A plan to cleanup the Gull River appears to be in line for federal funding this spring. The plan, which is to be funded by the Ministry of the Environment, will also include two similar projects in Snowdon Township.

The proposed works project was drawn up by a committee formed by councillors from the municipalities of Snowdon, Lutterworth and Anson, Hindon and Minden. Included in the proposal is a plan to restore the shoreline adjacent to the Peacock Bridge on the Burnt River. The three week project will be undertaken to prevent the serious erosion of the riverbank using rock-filled wire baskets and the dumping of fill. The bridge is situated on the Irondale Road.

In the second three week stage of the overall project one kilometre of the Drag River south of County Road 1 will be cleared of boulders to create a channel for watercraft. At present canoeists must portage this section of the river when the water level is low. The river is formally recognized as a canoe route by the Ministry of Natural Resources.

The main project being proposed by the joint committee is a general cleanup of the Gull River between Gull Lake and Minden. This will include the removal of debris that poses a threat to boaters as well as some dredging of the riverbed. In summer months this section of the Gull River is a popular marine channel

for cottagers, tourists and residents of Minden. During last year's flooding many stumps, logs and branches were washed into the river and remain jammed up on the shore.

According to Lutterworth Clerk Wayne Hughes, the officials that he contacted at the MOE have examined the proposal and feel that

all projects appear to be in line for funding. If the project is approved a grant of \$42,000 will be provided to the three municipalities under the Environment 2000 program. Two workers from each municipality will be hired for approximately 20 weeks. The project is slated to begin at the beginning of May.

Vehicles block plows

Vehicles that have been parked on several roadways in Lutterworth township have been interfering with or obstructing snow-plowing and sanding operations carried out by the township road crew.

Road Superintendent Floyd Miller brought the matter to the attention of council at Thursday evening's council meeting. He said that at times there have been as many as 70 cars parked on the Davis Lake Road and that parked vehicles are also causing problems on the Rackety Trail Road. Several cars that were parked on the road

or in the middle of the turn around at the end of the road have completely obstructed township trucks. Mr. Miller added that some vehicles also create a dangerous situation when the trucks that are sanding township roads have to drive around parked vehicles, as there is a danger that the trucks will slide off the road or into the vehicles parked on inclines.

In recent years the township has tagged vehicles to advise owners that the cars must be parked off the road but the tagging operation was only effective for a few days. Parking lots have been

created on some roads by either the township or the cottagers association but they have not completely solved the problem.

As a result of recent amendments to the Highway Traffic Act Municipal By Law Enforcement Officers, after notifying the police, have the power to tow away vehicles that are impeding snow plowing operations.

The township will be sending out notices to township cottages outlining the problem and pointing out that all vehicles must be parked away from the road to allow maintenance operations to continue.

Woodchips fly in a steady stream as John Dunsmore slices his way through a log during the Haliburton Winter Carnival. For more pictures and a report on the weekend's activity, please see page 8.

Chamber's intentions questioned

The issue of economic development in the county was the subject of a presentation made by Councillor Gary Kenney at the regular meeting of the municipal council of Anson, Hindon and Minden on February 9.

The councillor expressed his concern that the Chamber of Commerce had not taken up his offer to

serve on the Economic Development Committee. The councillor presented a letter from 1983 stating the Chamber of Commerce Board of Directors was pleased to learn that the councillor was interested in serving on the committee and expressed their confidence that he could provide a worthwhile contribution to their objective.

Mr. Kenney pointed out that he has not been contacted by the committee and had never been notified of the date of their next meeting.

The councillor went on to say that he did not want to engage in any "chamber bashing" but instead wished to make specific proposals.

Mr. Kenney suggested that consideration should be given to support by the County for allocation of funds to the Chamber in 1984 that would be used to investigate, with professional assistance, a marketing strategy that would involve such diverse interests as resort and campground facilities, convention and tour services, day visitors, cottage and residential development, the public service sector and wilderness recreation.

The councillor also recommended that a major increase in County allocations should be made to the Chamber in 1985 to meet the needs of a concerted marketing effort

in the direct interests of all parts of the county as well as a severe lobbying effort for a Provincial Park in the eastern townships, wilderness management areas for day visitors throughout the county and attention to residential and cottage development.

As well the councillor recommended that the County should make a five year commitment to a marketing strategy as part of the proposed 1984 plans previously mentioned dealing with such factors as the Kanawa Museum, municipal involvement in information centres and special interest promotions.

Kenney concluded his

remarks by stating that his criticisms of the Chamber result from the lack of direct effect that the present programs have on all but a limited, and geographically concentrated, number of

county interests but added that the Chamber is the only County vehicle with experience and proven capability to implement a marketing strategy.

Fire

(from page 1)

about four miles from Minden, the upper story of the home was in flames. The advanced state of the fire and the intense heat prevented fire fighters from extinguishing the blaze.

The timber framed house was owned by Frank Gibbs and is believed to be about 100 years old. The cause of the fire is unknown.

Friends and neighbours have donated food and clothing to the Butler family. Further donations are being accepted at the Shell Station, Highway 35, Minden. A trust fund has also been set up to assist the family. Anyone wishing to contribute can contact Mrs. Maizie Austen at 286-3607.

A H M agenda

Agenda for the regular Council meeting to be held in the Municipal Council Chambers on Thursday, February 23, 1984 at 10:00 a.m.

1. Adoption of minutes.

Delegations

2. 10:00 a.m. - Ross Warburton re.: South Lake Road reconstruction project and intersection with Bat Lake Road.

3. 10:15 a.m. - Bob McBrien re.: proposal to declare old Langdon house as a heritage house.

Other matters

4. General, Water, Sewer accounts.

5. Boundary Information account.

6. Resolution re.: "Vantage 12" Electronic Small Business System.

7. Resolution re.: statement of remuneration and expenses paid to members of Council in the year 1983.

8. Correspondence.

By-Laws

9. By-law 84-7 - Being a by-law to authorize the municipality to enter into an agreement with the Province of Ontario for the installation of a basic accounting system BACPAC.

10. By-law 84-8 - Being a by-law to authorize that certain reserves and reserve funds be established according to the Municipal Act and the Planning Act.

11. Other business.

Lutterworth subsidy cut-back

The provincial government's policy of cutting back on municipal funding has reduced Lutterworth Township's road subsidy for 1984. As well the township must increase spending in order to qualify for the funding.

In 1983 the township received \$86,000 to subsidize the initial road budget of \$139,500. This included a grant guarantee of \$15,100. A supplementary subsidy of \$13,600 was awarded to the township for the Davis Lake Road construction project

which cost an estimated \$25,000.

This year the base expenditure has been increased to \$143,600. A reduction in the grant guarantee has reduced the subsidy to \$85,800 forcing the township to raise \$4,300 more than last year in order to qualify for the provincial subsidy. The announcement of the cutback prompted councillor Bill Valentine to comment, "You are told what you have to do" and added "It is starting to add up to a lot of dollars."

Scott skates with NHL stars

Scott Russell has a dream that one day he will be able to play in the National Hockey League. Scott got a preview of what it is like to be on the ice with big league players on Friday night when he played for the Minden All Stars in an exhibition game against the NHL Old Timers. What is notable about Scott's participation in the game is that he is only 13 years old.

Scott who is a grade seven student at Archie Stouffer School is the son of Tom and Cheryl Russell of Minden. During the winter months Scott plays on the Minden Pee Wee and Bantam teams. His dedication to hockey continues throughout the summer.

For the past two years he has been playing centre for the Northern Lakeshore Selects, a team made up of the best junior players in the province. Scott was chosen by the team's coach after he saw him play in a regular season game two years ago. In his first summer with the Selects the team won a bronze medal at an international tournament held in Cobourg. Last year the team placed second winning the silver medal.

After being selected to play for the Minden All Stars Scott participated in several practices with his father on the Ministry of Natural Resources team. "My father suggested I should practice with them to get used to playing with the older fellows" Scott explained adding, "I didn't find it that hard compared to Bantam play."

Scott also had no difficulty in keeping up with the

"older fellows" during the game against the NHL Old Timers. He assisted on two goals and was named the Player of the Game. Scott was presented with the award by Ron Stackhouse a former player with the Pittsburgh Penguins who grew up in West Guilford.

Scott had an opportunity to talk to Ron Stackhouse and former Maple Leaf Star, Ron Ellis. "They were quite surprised at my age" Scott remarked and added "I thought they were real gentlemen." Both players complimented Scott on his playing ability and encouraged him to continue

working on his hockey skills. He also admires Andy Bathgate who caught the Minden players off guard and tossed a pail of water onto the players bench. "I

was the first to duck but I got the wettest," Scott said.

After the game Scott joined a large group of fans who were having their programs autographed by the Old Timers. None of the players realized that they had been playing against Scott during the game. Scott guessed that, "They didn't recognize me with my face mask off."

Scott intends to continue

his hockey career hoping one day to play in the NHL, but he also intends to continue his studies. As he explains, "I want to go to university in case hockey doesn't work out." He would also like to play on the Olympic Hockey Team.

For the time being Scott has every right to feel proud of his accomplishments as a hockey player. Friday night's game against some of the all time great NHL stars will be a highlight of his young career. As Scott describes it, "It was quite an honour to play on the All Stars. I would like to do it again sometime."

Thirteen year old Scott Russell was named player of the game Friday evening.

Correction

A report of the meeting of Stanhope Township in last week's edition of The Times reported that the Haliburton County Board of Education had requested that the municipalities subsidize the purchase of mobile radios for school buses. The Board did not approach the municipalities asking for funds. The board has planned for some time to allocate funds for purchase in the 1984 budget.

editorial

Dividing the county

From time to time we gaze across our desk at a large wall map of Haliburton County and wonder if ten separate municipalities are really needed.

There are a number of compelling reasons for consolidating the existing municipalities into larger units. The most obvious is the amount of duplication of effort which takes place each day in each jurisdiction. In the ten municipalities there are ten clerks, most with secretaries and assorted support staff. All townships have road superintendents with additional staff and equipment. Most have bylaw enforcement officers, some have fire departments, some have building inspectors.

In the single township municipalities many of these positions are filled by one individual simply because resources and needs do not allow each post to be filled by a separate individual. The result in some cases could be the "Jack of all trades, master of none" syndrome, as employees find they do not have time to concentrate on the training needed to acquire the expertise in any one particular area.

Furthermore the smaller municipalities rarely have the resources to spend on highly qualified individuals, either as staff members or on a contract basis. This situation often leaves the single township municipalities at a distinct disadvantage in trying to compete for economic benefits from the senior levels of government or the private sector.

The question might fairly be asked, how big? Certainly the theory "bigger is better" has long since been dislodged from its lofty position. Studies have shown that corporations or municipalities can grow so large that the only way to manage them properly is to carve them into smaller units. However, we feel there may be real benefits to be gained from amalgamating some of the smaller municipalities. It is certainly an area which deserves some serious consideration.

One of the major hurdles standing in the way of amalgamation is the strength of local feelings. Residents have pride in their municipality particularly the smaller units. They may feel any benefits gained would not be worth the imagined loss of identity and community. The local politicians, who may stand to lose their positions in the community and who may feel their hard work of the past would be forgotten, would probably object strongly. Amalgamation would probably result in the loss of some jobs and those municipal employees whose security was threatened would also be expected to voice their opposition to the suggestion.

These concerns, real and imagined, would have to be dealt with before any progress could be made in reducing the number of municipalities in Haliburton County.

And because some of the arguments against consolidation would be based more on emotion than fact, winning over those who are reluctant to change would be even more difficult.

More next week.

Reflections, Drag River, Haliburton.

Care for seniors

- by John Eakins, M P P -

Ontario has thirty-eight home care programs. Services defined under the Health Insurance Act provide such needed supports as: Visiting Nurses Services; Physiotherapy,

Drugs, Dressing and Medical Supplies; Transportation; Meals-on-Wheels; Visiting Home-maker Services.

Fifty-six per cent of elderly people 75 years of

age and beyond make up the caseload for chronic home care in Ontario. Without this service, the majority of these people would have to give up community life. However, cracks are becoming visible in this much needed service.

A 1981 Medicus Canada report revealed several: 1) eligibility requirements fluctuate throughout the province; 2) interim rates for costs per professional visit were not adequate to meet costs of the program in many parts of the province and four area programs are operating under deficit funding; 3) staff lay offs are appearing, primarily in the north to address deficit funding issues; 4) eligibility requirements need to be expanded to include - a) older chronically debilitated patients who don't need the present required hours of nursing care but need homemakers services b) Alzheimer patients, c) terminally ill; and, 5) administrative costs are variable across the province

Federation of Ontario Naturalists

Naturalists have long believed there to be some connection between forests and rainfall. Until recently supporting evidence has been mainly circumstantial. However last year a pioneering study conducted in the world's largest forested area, the Amazon River watershed, came up with dramatic results. Scientists discovered that some areas of the Brazilian forest recycled as much as 75 percent of their rainwater back into the atmosphere by evaporation or transpiration.

The basic conclusion which this and other findings of the sophisticated study supports, is that a large forest can generate its own weather patterns. In global terms, forested lands can significantly affect the Earth's heat, water and sunlight which in turn are responsible for climatic variation. That's a rather

Budget includes changes

- by Bill Scott, M P -

Amid a very serious debate in the House of Commons on the ethics of the Prime Minister's Office, commissioning someone on the public pay-roll to scrutinize the private life of Brian Mulroney, the Government tabled its latest Budget on February 15th.

This Budget was of particular interest to me as deputy critic for National Revenue. For the past few months, as you know, our Party has been revealing the cruel and dispassionate approach taken by Revenue Canada.

At last, in response to our requests, one of the major thrusts of this budget has changes to the Income Tax Act and its regulations. In particular, those changes that were long overdue and most welcome are the extension of the time allowed for the taxpayer to file a notice of objection to a tax assessment to 180 days and the new policy which will eliminate the necessity of paying taxes in dispute before the objection is considered.

Now the taxpayer will instead be required to

deposit adequate security and not be forced to pay the taxes whether or not they are felt to be correct. This should go a part of the way toward elimination of the current guilty until proven innocent attitude in the Tax Department.

Other measures which were overdue and have been requested for some time are the new regulations which will govern tax court decisions. Now the tax court will have the right to order Revenue Canada to pay any taxpayer up to \$1,000 to cover the cost of a successful appeal.

As well, it will now be established that anyone will have the right to a refund of an overpayment found by the tax court in its decision. Up to now, even if the court rules in a taxpayer's favour, Revenue Canada was under no obligation to pay the judged amount.

For the last couple of years, I have spent much of my efforts in Ottawa trying to get the Government to acknowledge the difficulty senior citizens, in particular, have in paying quarterly installments in their income

taxes. Continually, they have said yes they knew it was a problem, but could do nothing about it. Finally, and while I still have a Notice of Motion on the Parliamentary Order Paper asking the Government to eliminate quarterly payments for seniors, they have announced that they are going to address the problem.

What they intend to do is increase the income tax threshold below which interest income is exempted from \$400 to \$1,000 and where interest assessed due to late or deficient quarterly payments is less than \$25, it will not be assessed. These changes are particularly gratifying to me, as they show my work has not been in vain. To all those who supported me in this effort, I thank you and I hope these changes will be of great benefit to you individually.

Many of my colleagues, especially in Western Canada, have been fighting the current method of application of Section 31 of the Income Tax Act. In the past couple of years, Revenue Canada has reassessed many farm

operations and disallowed their farm losses over the past five years, as they claim they are hobby farms with no reasonable expectation of profit.

This has resulted in assessments far in excess of the taxpayer's ability to pay and has forced many farmers off their land. In this Budget, the Finance Minister says that they will establish a consultative group to study the problem. I hope that these farmers who are forced to take jobs off their farms just to make ends meet can hold on to their land until this group makes its recommendations, whenever that will be. Unfortunately, it looks as though this problem is far from a solution.

A number of proposals were included to simplify tax reporting procedures for small businesses. If implemented, this may indeed be helpful, but they are asking for input up until April 15th and then they will decide what the exact legislation will include. This looks like another promise which may fall well short of expectation when implemented. In any case, there is

no doubt it, as the proposed Employee Profit-Participation Plan, will not be in effect until the 1985 taxation

year. By then, several budgets may have come and gone and undoubtedly this Government will be just a bad memory.

John Eakins

(from page 4)

resulting in such disparate costs/visit as \$13.30 in Windsor and \$21.20 in Simcoe County in 1982.

Necessary reform

In April 1977, at the Institute de la Vie World Congress in Vichy, France, Elaine Brody stated: "Long-stay institutions are living arrangements and their residents have social, psychological, emotional needs that go beyond survival, subsistence and medical maintenance." This statement — radical at that time — obviously demanded reform. The statement is no longer radical. The reform is conspicuously absent.

What seems to be needed is a uniform standard of care and one set of regulations

to govern all long term care providers. The province should undertake a general review of shelter options for the elderly and future alternative options involving both the public and private sector. Increased support is needed for demonstration projects which develop innovative care options for the elderly: respite services, day programs, outpatient programs, home assistance, day care.

To meet the increasing needs of its aging population, Ontario must be willing to propose a new system of service delivery which provides real options for living — not simply provide cosmetic reform to an antiquated system.

Lutterworth by-law hearing approaches

by Michael Shirley

After years of delays and negotiations with two provincial ministries Lutterworth Township's Restricted Area By-Law 24-82 will finally receive a hearing in front of the Ontario Municipal Board (OMB). The hearing, which will take place this spring, will be the last step in a process which began 14 years ago.

In 1972 Lutterworth Council passed the Restricted By-Law 13-72. This was the first comprehensive zoning by-law for the township and had a major impact on residents and developers. A series of amendments dealt with the many objections to the by-law and the revised version was passed by the OMB in 1976.

However in time Council realized that the by-law was not tailored to the needs of the municipality. The by-law was noncommittal in some aspects; the zoning was inaccurate or imprecise in some cases and the mapping was not accurate. The by-law was also structured in such a way that amendments were difficult to initiate.

The municipal planner, John McDermott suggested that a complete new by-law should be drawn up to save the township a great deal of delay and expense. The planner also informed council that a grant covering 75% of the cost of the by-law was available from the Ministry of Housing.

In the spring of 1981 after the grant had been approved the rough draft was submitted to the Ministry of Housing. The Ministry responded immediately noting among other concerns that the by-law did not include "environmental protection zoning for hazard lands". This was council's first indication that such zoning was necessary. As a result the council decided to hold a special meeting with representatives from the Ministry of Housing and the MNR on June 9, 1981. At the meeting all the concerns raised by the Ministry of Housing were resolved, but council was unable to reach an agreement with the representative from the MNR.

Warren Evershed the senior planner for the district outlined the ministry's objections to the new by-law. He explained to the council that the MNR had developed a province-wide policy regarding the protection of lands that they believed were susceptible to flooding. He noted that the policy was created to prevent the encroachment of structural development or major landscape alterations on flood prone areas. The district planner went on to describe the township's hazard land mapping as

"suspect" and stated that all shoreline areas within the township should be designated hazard land.

Council members disagreed arguing that there were few areas that were susceptible to flooding. Mr. Evershed stated emphatically that any provision in the Environmental Protection Zone regulations for the relief of lots of record affected by this classification would be unacceptable to the Province.

Zoning eliminated

Following the meeting, council decided that because there was no possibility of a compromise that they would eliminate any Environmental Protection Zone classification and associated mapping from the new by-law. On September 29, 1981 the Restricted Area By-Law 4-81 was read for the third time and passed by Council. In January 1982 the by-law was lodged with the OMB. As a result the Ministry of Housing told council that the grant awarded to Lutterworth for planning costs would be reduced because hazard land zoning was not included in the by-law. Because of the threat to withhold funding and the objections raised by the MNR the council decided to meet again with representatives from the two ministries.

At a meeting on March 25 the MNR representative agreed to review the township's original environmental protection zoning and flood plain mapping. This was confirmed in a letter sent to council in June by the new Regional Planning director K.K. Irizawa. The letter informed council that the Ministry would be satisfied with the by-law provided the township amended the by-law to include the original Environmental Protection Zoning.

Council considered the stand taken by the MNR and at a council meeting held on July 13 resolved not to amend the by-law. In a press release published in The Times on July 28, 1982 the council explained that for the township to authorize an amendment would "require a second general circulation of the amending by-law at considerable additional cost to all municipal rate-payers, government departments and agencies and would further delay the passing of the by-law through the Ontario Municipal Board."

The press release added that Council believed the provincial policy "should not be allowed to bring hardship to the property-owners of this township whose lands would be affected by this restrictive zoning." The release continued "in view of the limited pace of development in this region and the minimal growth in

this region, such a policy is not considered by the Municipal Council to be necessary, or even justifiable."

Pope comments

A month later council received a letter from Alan Pope the Minister of Natural Resources commenting on the press release. The minister reiterated his ministry's objection to the township's stand and stated that "It is the policy of this government that future land uses in areas that are subject to flood risk not be permitted." As a result of the letter council decided at a November 18 session to meet personally with the minister.

In the meantime council had passed the Restricted By-Law 24-82 which amended By-Law 4-81. The amended by-law resolved various site specific objections as well as errors and omissions which had occurred in the drafting of By-Law 4-81.

In August 1983 a delegation from Lutterworth was finally able to meet with Alan Pope. The minister appeared to be quite sympathetic and stated that the problems could be easily resolved. The Minister promised to contact his officials to work out a solution and said he would phone Reeve Ron Gambell when this was done. The Reeve never received the phone call but by the end of the month an agreement had been reached with the MNR.

On August 30 Council passed an Interim Control By-Law which would place lands along the Gull River in a holding zone category to limit development of the lands until the results of an Engineered Flood Plain Study were available. The study would be conducted by a private firm under the Canada / Ontario Flood Damage Program. This meant that the MNR would have control over development in the area covered by the study. It also meant that the Restricted Area By-Law would remain intact and that no circulation of the Interim Control By-Law would be necessary as would be the case with an amendment to the zoning by-law.

In late April or early May Lutterworth's comprehensive zoning by-law will finally get a hearing at the OMB with the support of the MNR.

After the by-law is approved many of the zoning changes which have remained in limbo for several years will finally take effect. The township will be able to proceed with work on their new dumpsite and many township residents will be able to begin projects which have had to remain on the drawing board.

After years of delay a lot of plans will soon become reality.

from the chamber

Each year Sir Sandford Fleming College of Applied Arts and Technology, Frost and Sutherland Campuses awards Fellowships in Applied Education at convocations in May to citizens for significant achievement or contribution to their community.

The awards are open to anyone, regardless of their educational or other backgrounds and can be made for volunteer work in the community. The fellowship is an Honorary Award which recognizes citizens from any field of endeavour for meaningful accomplishments through the outstanding practical application of knowledge in any vocation or avocation.

Nominees must reside or have worked in Haliburton, Peterborough or Victoria Counties. We have many hard-working dedicated people in this county who should be considered for this award and you, the public, know best, who they are. Nomination forms are available at the Chamber office and should be forwarded to Bob Harrington, Frost Campus, Sir Sandford Fleming College, Box 8000, Lindsay, Ontario, K9V 5E6 by February 24 or telephone 324-9144 ext. 260.

Minimum wages in Ontario will increase 35 cents to \$3.85 an hour on March 1, 1984 with a further 15 cents rise set for next October 1, 1984. The last increase in the minimum wage was October 1981. We are expecting copies of all the changes at the Chamber office in the near future or you may order your own from the Department of Labour at Zenith 28680.

Please let us know! - As you can imagine with the temperatures soaring and plunging lately we are being deluged with inquiries as to weather reports and snow depths, snowmobile and ski conditions, tourists wanting to know if this event or that event is still scheduled, what are the new dates if the event was cancelled, etc.

Most of the calls are from the southern parts of the province where the traces of winter have long since vanished and they must be reassured that we still have lots of ice and snow. We do appreciate being kept informed by the Snowmobile Association and some resort owners as to the various trail and ice conditions, but would certainly welcome more last minute notifications of what is happening about your scheduled events.

Visitors to the county sometimes become very annoyed after driving long distances to find conditions other than what they were

led to believe. It is also very convenient for us to know when resort members have openings available particularly if they are on a weekend when tournaments, bonspiels or winter breaks are planned. The Tourist Information section of the Chamber is only as good as the information it receives and it certainly helps when we are all working toward the same goals. P.S. Does anybody know about the ski tour?

The Chamber office is open Monday to Saturday, 9:00 a.m. to 4:30 p.m. telephone 286-1760.

We would like to hear from the rest of you who are interested in attending the Sportsmen's Show one some of the dates between March 16 and 25. If you prefer, you can stay in the Highlands and we will display your brochures for you at this annual vacation oriented exhibition. Please call us now at the Chamber office 286-1760, for details. A brand new updated Chamber booth is presently under construction.

We have had inquiries about acting as middleman for the purchasing of postcards peculiar to the area. Naturally, the larger the order placed, the better the price. If your business, be it gallery, museum, resort, maple syrup production, snowmobiling or whatever has one or more scenes it would like reproduced in minimum volumes of 2000 each, it could definitely be of financial advantage for you to go co-op with the Chamber. A colour photo 4" x 6" is needed for reproduction. It might be necessary to go to last years files if you want your trees in leaf to pick out the one/ones you would like to order to have the postcards ready for May 24. Please let us know if you are interested at 286-1760.

We have two lists of companies which have been licenced to produce and sell items featuring the Bicentennial logo which includes such things as buttons, calendars, crests, pennants, T-shirts, flags, spoons, golf shirts, brass key tags, candles, recipe books, caps, playing cards etc.

"Great Moments in Ontario" is a poster depicting significant events in Ontario's history with approximately 150 images and descriptions - it's Ontario's answer to Trivial Pursuit. These posters are available from the Ontario Government Bookstore, M.G.S. Publications Services, 880 Bay Street, 5th Floor, Toronto, Ontario, M7A 1N8. Make cheques payable to the Treasurer of Ontario for \$5.35.

Police are seeking information regarding a tractor-trailer float truck which was parked near the Ontario Hydro storage yards in Minden on the night of February 13 - 14.

As reported in last week's edition of The Times, the yard was broken into and a quantity of tools removed from the parked trucks. The material was taken out of the yard through a hole cut in a chain link fence, behind the Moynes Furniture Store.

The value of the stolen

property has been estimated at \$1746.

Investigating officer Mike Maher said there are no suspects in the case at the moment, but he has suggested that the presence of the float truck may somehow be connected with the incident.

Anyone with information about the incident is asked to contact Constable Maher at 286-1431.

Truck theft

A truck stolen from the Emmerson Lumber Yard in Haliburton on the night of

February 17 - 18 was recovered later the same day on St. Peters Road in Stanhope Township.

The truck was driven

through the locked gates of the lumber yard by the thief.

The matter is being investigated by Constable Dave MacMartin.

Outdoors

(from page 4)

important piece of news and it has generated great interest in the scientific community.

In the most extreme case reported, 25 percent of the rainfall drained out of the area in stream runoff. Another 25 percent evaporated straight back into the atmosphere from droplets on the surface of trees, while the final 50 percent was transpired back into the air. Transpiration involves moisture absorbed through the plant's root system from the soil, being carried by its vascular system out to the leaves where it is released through their pores.

The overall average amount of rainwater recycled was found to be 50 percent, quite enough to form new rain clouds. This provides a stark contrast to bare, deforested lands, which were found to return only one-tenth as much moisture, and grasslands or other vegetated lands, which returned only one-fifth as much.

Many hydrologists up to this time rejected the possibility that forest clearance or replacement by other types of vegetation would involve any appreciable effects on the water cycle. But this data indicates otherwise. So does the fact that water runoff is greatly increased in the absence of heavy vegetation to break the fall and where compacted soils reduce infiltration or where trees were cleared adjacent to water-courses.

Fine, but does this mean anything in Ontario? In principle, yes it does, because the underlying forest dynamics are the same the world over. However, the full implications for the nurturing of forests in our climatic regime will require further study. It would

appear to be worthwhile.

In Ontario, the landscape is overwhelmingly forested. Both our economy and recreational lifestyle depend on our ability to maintain the forest dynamics evolved over millennia. The fact that we

are chewing up the forest at the rate of 600,000 acres each year, mostly in large clearcuts, argues persuasively for a continuing field research program to trace the impacts of our land use on nature's hydrologic and nutrient cycles. So does the government's policies of allowing harvesting to the waters edge where reserves used to stand. And the growing menace of acid rain and the apparent destruction of European forests due to this pollution lends even greater urgency.

Hawk-Halls Lake

Lake association suggests limit to water draw-down

A limit should be placed on the amount of water which can be drawn from reservoir lakes in the Highlands, according to a recommendation contained in a report prepared by the Big and Little Hawk Lakes and Halls Lake Property Owners Association. The recommendation was one of four contained in the report prepared for the Haliburton County Council sub-committee on water levels.

The report suggests that a maximum draw-down should be designated to protect the economic and recreational value of lake-shore property owners. "The draw-down should be based on a storage capacity for the Hawk Lakes of the acreage times six feet of water draw-down," the report recommends. "There is no magic about six feet, other than the figure, we feel, would provide adequate depth for navigation between the two Hawk Lakes and is a substantial contribution to stored water needs."

The comprehensive report noted that during last summer up to five logs were removed from the Hawk Lake dam Friday afternoon. The flow had been restricted during the week to enable the installation of a flow metering device below the dam. "This 'catch-up' procedure created serious safety concerns by causing very strong currents in the narrow channel under the bridge immediately north of Big Hawk Marina."

It was noted that most cottages on Big Hawk Lake are reached by boat and many individuals arrive late

Friday night. "It's a wonder someone wasn't killed there this year," the report commented.

The report also noted that low water levels resulted in the risk of damage to boats and motors. It was reported that an unburied submarine hydro cable was struck by a boat in the narrows between the two lakes and that access between the two lakes came to a virtual standstill in early September because of the low water level.

Transfer authority

The report also recommended that control of the reservoir lakes be transferred from Parks Canada to the Ministry of Industry and Tourism. "Not only would this transfer eliminate the federal - provincial rivalries, it would also increase co-operation among provincial ministries and ultimately give priority for capital funds required to improve the tourism in the reservoir lakes," the report said.

The authors of the report stated that the relationship between cottagers and the Trent Canal Authority have, "improved dramatically during the past twenty years ... they do a reasonable job." However, the report went on to say the authority seems to lack, "common sense and regard for the safety of boaters as well as an awareness of the damage fluctuating water levels can do to docking facilities, both private and commercial."

The property owners association recommended

that a conservation authority for the Gull River system reservoir lakes be established so water quality and levels could be managed.

It was also suggested that "economically feasible alternate storage facilities on the Gull/Burnt/Black River systems be considered ... to alleviate future water shortages." It is pointed out that lakes are the focal point for recreation in the Highlands, and increased population, leisure time and tourism will make the maintenance of a proper water level increasingly more important. "We suggest that several small alternate storage areas, set up for day-use recreation, would be preferable to one large area."

Water not shared

The report said there appeared to be little indication of equitable sharing of water supplies during 1983. Citing reports contained in the Trent-Severn Waterway Water Newsletter, the property owners association

noted that some lakes had to deal with a drop of up to three metres while concerns in the lower Trent system centered around fluctuations of two to six centimetres. "The effect of a three metre drop in water on shoreline facilities - docks, ramps, etc. - means very difficult access to our property, period!" the report emphasized.

According to the property owners association concrete

evidence does not exist to show what impact the lake autumn draw-down has on fish spawning. "We suggest that the fish be left to cope with draw-down and spawning by themselves." The group claims it offered to assist the Ministry of Natural Resources to study the problem, but received a weak response.

The association also expressed concern about the economic impact of water level fluctuations on commercial enterprises. Difficulty of access to cottages, problems at resorts and marinas were all cited as areas where the economy might be hurt by uncertain water levels. "When cottagers and tourists choose to spend their leisure time elsewhere, as many did this past September and October, commercial establishments suffer even more. Cottagers do require many services from the permanent residents and are anxious to see the local businesses survive. Water levels and water quality should be the Haliburton Highlands' number one concern," the report concludes.

Little Theatre

Casting call for May play

If you ever thought you would like to strut your hour, or moment, upon the stage, this could be your opportunity to don the grease paint.

The Highlands Little Theatre group is mounting a special performance for their tenth anniversary show and have extended an invitation to all would-be thespians to take part.

Theatre spokesman Caryl Douglas said earlier this week that the group will be presenting a special three, one act, performance in early May. "In recognition of the support we have received in the county, the plays will be presented with a reduced admission fee and the proceeds will be turned over to a local charity," Douglas said. "We want to say 'thank you' to everyone for their support during our

first nine presentations."

Since the evening will include three one act comedies it is possible that three entirely different casts could be involved in the production. "Ideally we would like to see a different cast in each performance," Douglas commented, "to give everyone a chance to take part in this special presentation."

The Little Theatre group is particularly interested in attracting those individuals who are interested in their productions, but who haven't taken part in the past.

"Of course, it takes more than actors to mount a performance," Douglas commented. "We are looking for individuals interested in backstage activities as well, including lighting, costumes, make-up

and set design, etc."

Anyone interested in taking part in the May production is invited to a casting evening to be held this Thursday night, February 23, at the Douglas residence. For more information about Highlands Little Theatre, or details about this special performance, contact Caryl Douglas at 286-3115, or Michael Collins at 447-2956, or Heather Scully, after 6 p.m. at 457-2983.

The group is also interested in locating rehearsal space for this production and future performances. They need an open space to accommodate the cast several evenings per week. Contact the numbers listed above for more information.

Haliburton Winter Carnival

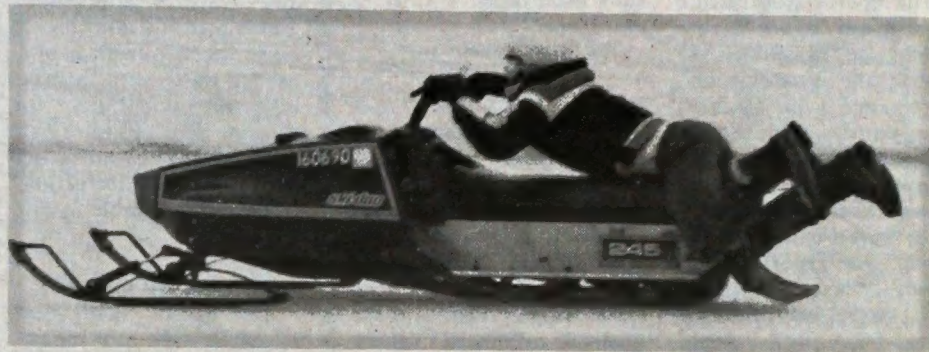

Despite mild weather, which virtually eliminated traditional winter activities, the Haliburton Rotary Winter Carnival was deemed a success. Chairman of the event, Dale Robinson, said he was very pleased with the attendance and participation at this year's events.

"The dance was a sell-out success" Robinson commented. "The various meals offered during the weekend were so popular that some experienced a shortage of supplies."

The lumberjack competitions Saturday proved to be a popular drawing card and helped provide an alternative to the

snowmobile and ATC events which had been planned for Head Lake. Even with the races cancelled, some participants couldn't restrain their enthusiasm and took their machines onto the slush covered lake. The trans-Atlantic dart tournament at the Legion was a popular success for the second year in a row and the model train display at the Rails' End Gallery drew an appreciative crowd.

Chantale LaRue of Haliburton was crowned Queen of the Carnival while Maria Rosenberg and Liane Whitfield were named Princesses. The photos on this page capture some of the excitement of the weekend.

WANT TO APPEAL YOUR ASSESSMENT?

You still have time to appeal your 1983 assessment if you feel your home or business property has been improperly assessed.

Your assessment is important because the amount of property tax you pay depends on it, in that the assessed value of your property is multiplied by your municipal and school mill rate to determine your 1984 property taxes.

Notices of Assessment have been mailed to property owners and tenants whose assessments have changed since last year. Open houses have been held in your area to answer questions and amend assessment information if necessary. Open house dates and locations were announced in a previous advertisement.

The Assessment Roll has now been delivered to your municipality for the purposes of calculating the amount of taxes you must pay on your property in 1984. For information on your assessment, the Assessment Roll is now available for review at your Municipal Office during regular business hours. If you feel your property has been improperly assessed, and you have not yet made your appeal known, you still have until March 7 to deliver or mail an appeal to the Assessment Review Board. **And remember, even if you did not receive a Notice of Assessment, you still have the right to appeal.**

Appeal deadline—March 7, 1984

The Assessment Review Board is an impartial body reporting to the Attorney General of Ontario, which provides you with an additional opportunity to have your assessment reviewed if, in your opinion, it is not fair and equitable with similar properties in your area. The Review Board is more informal and relaxed than a regular court of law. You may present your own case, retain a lawyer or ask a relative or friend to speak as your agent.

To help you in filing your appeal, Notice of Appeal forms are available from the Assessment Review Board, your Regional Assessment Office or your Municipal Office. As well, you can use the reverse side of a Notice of Assessment or write a letter stating the property address and roll number, together with your reasons for appealing. Appeals should be forwarded to the Regional Registrar of the Assessment Review Board listed below.

Atoms

The Minden Atoms won one and tied another game in their round-robin play-off series. They defeated Bobcaygeon Saturday by a 4 - 0 and tied a Sunday tilt with Little Britain, 2 - 2.

Rob Ackerblade led the attack for the Atoms in the opening game scoring two goals and assisting on another. The first goal for Minden came from Kevin Buchanan with assist going to Steven Beaver and Randy Bull. Ackerblade scored from Darren Sawyer and Hunter Obee. His second marker was assisted by Philip Boyle and Sawyer. The final Minden goal was scored by Darren Sawyer with the single assist being awarded to Ackerblade.

Aaron Hie was in nets for the Atoms, recording his third shut-out of the season.

In the Sunday game, Little Britain scored two early goals to take the lead.

Minden managed a great come-back, with an unassisted goal by Jamie Dollo and a tally, with just 51 seconds left to play, from Robie Ackerblade. The assist was awarded to Darren Sawyer.

The next game for the Atoms is this Saturday evening, 7 o'clock, at the Orono arena.

Juveniles

The Minden Juveniles have been eliminated from further play in the league as they went down to a 6 - 1 defeat at the hands of the Powassan team. It was the fifth game in the best of seven series. Minden won only one game in the play-off.

The lone Minden goal was scored by Jeff Stamp, unassisted.

Minden netminder, Kevin Smith, was named the first star of the contest.

'Blowers win series

In a close game that wasn't decided until the closing minutes of the third period, the Rockcliffe Foam Blowers have advanced to the Minden Men's Recreational Hockey League play-off finals. The Foam Blowers edged Hall's Insurance 8 - 7 to claim the victory. They edged out Hall's two games to none in the best of three semi-final play-off.

Dave Hartwick and Dave Pettis led the Rockcliffe attack, scoring a pair of goals each. One of Pettis' efforts was unassisted. Hartwick also assisted on another goal.

Other Rockcliffe goals were scored by: Dave Brown who also picked up three assists; Wayne Boutcher with a goal and two assists; Jean Davis one and one; Wayne Johnson with a single goal; and Jim Todd and Kim Hamilton with an assist each.

Barry Ward and Larry Kent scored a pair of goals for Hall's Insurance. Ward was also credited with an assist. Other Hall's goals came from Dean Hewitt with a single and an assist; Barry Walker, one and one; and Wally Stender with one and one. Jerry Campbell was awarded two assists with singles going to Bill Leary and Joe Mitcheal.

The winning goal for Rockcliffe was scored by Jean Davis, with the assists being credited to Wayne Boutcher and Dave Brown.

In the other game, Home Hardware evened the semi-final play-off with 12 - 2 drubbing of Hartwick Construction. Home was behind in the series 1 - 0 going into Monday night's game.

Sid MacKeigan was the hot gun for Home Hard-

ware scoring five goals in the evening, one an unassisted effort. Other goal getters for Home included: Greg Carpenter with a pair and one assist; Ted Vasey with a single and three assists; Andy Campbell with one and three; Barry Shaw with one, unassisted, and one assist; Peter Pearson one and one; and Doug Ray with a single. Assists were credited to Scott Moody with four and John MacAdam with a pair.

J. Blackwell and C. Berube scored the two goals for Hartwick. Blackwell also picked up an assist. Other assists were awarded to B. Smith and Dennis Brule.

The Home Hardware - Hartwick Construction semi-final play-off continues this Monday evening when the winner should be decided. The final, best of five series, is slated to begin March 5. Admission to the games is free.

Y.B.C.

by Lora Patton

For the past two weeks the Bantams have been competing for the chance to go to the Master Bantam tournament held in Peterborough.

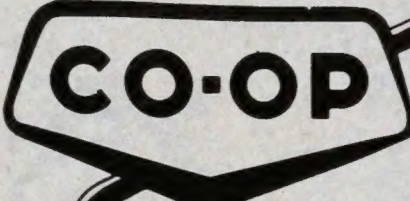

In the girls, Lora Patton had the high score of 197 flat single.

For the boys, John Patton had a tremendous 202.

This week both John and Lora had moderate scores but their coach, Ron Robinson Sr., says that last week's high scores won it for them. Catherine Lawr surpassed her high score with an excellent 257 but this was not enough to break up the brother - sister team going to the finals.

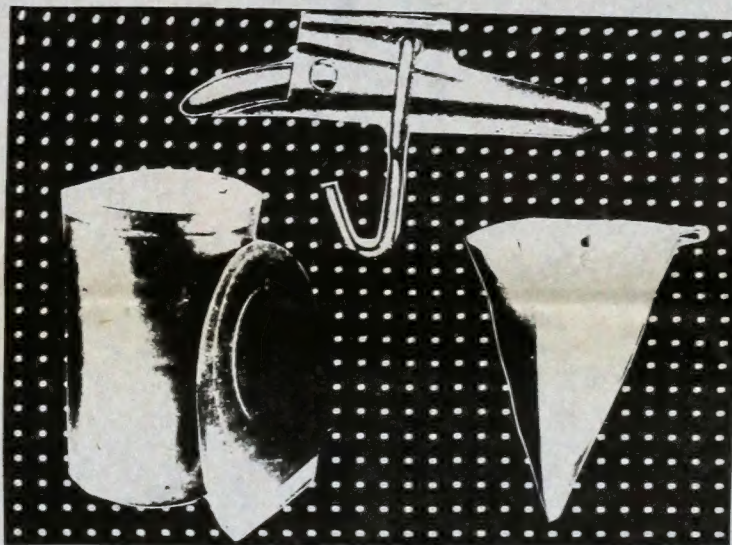

Defenceman Rod Seiling and goalie Wayne Wood of the NHL Oldtimers try desperately to stem a third period come-back by the Minden All-Stars during Friday evening's game. The tactics seemed to work as they won the game.

Barnes rink wins bonspiel

by Dwight Thomas

A most successful second annual Carnarvon Electric Mens Bonspiel highlighted activities at the Minden Curling Club last weekend.

Twelve teams participated with entries coming from Wilberforce, Toronto Avonlea, Cannington and the Lost club. After curling three tough games, the points were added up and the Wyatt Barnes entry from Wilberforce was declared the winner. Wyatt and his team of Mike Amyotte, Peter Jennings and Glen Clark posted three victories in amassing 40 1/2 points and taking home some \$275.00 in retail prizes. Their three wins included a

14 - 3 victory over John Beachli Sr., a 15 - 2 thumping of Bill Dillon, and a 10 - 6 triumph over Shane Blakey.

The victors took home keeper trophies, desk mounted swivel lamps donated by Lorne Heiss of Carnarvon Electric and \$100.00 worth of T-Bone steaks prepared by The Butcher Shop. In fact, all twelve teams took home prizes from the total allotment of \$850.00 worth of prizes.

Second spot, and winners of the Central Canada Distilling trophy, was the Neil Burk foursome from Minden. Neil and crew members Jerry McKelvey,

Dwight Thomas, and Ken Fielding Sr. scored three wins and collected 35 points. They took home curling brooms, hats donated by Big Jer's and record albums donated by the Rockcliffe Tavern. Burk opened the 'spiel with a tough 8 - 7 victory over Cannington's Steve Park, followed that with an 11 - 5 win over Allan Rea of Toronto Avonlea and finished with a 9 - 8 victory over Minden's Merv Mintz team.

Third place was captured by Minden's Shane Blakey; fourth was Cannington's Steve Park; fifth was Merv Mintz while sixth spot was captured by Bill Dillon. The seventh position went to Minden's George Dickie;

eighth went to Bill Obee of Minden; ninth was Toronto's Allan Rea; tenth spot was captured by Minden's Roy Colliss; eleventh went to Minden's Herb Roodenburg and in the final spot was John Beachli Sr.

A tip of the hat to the participants and workers who made the bonspiel such a success. And our thanks to the following people who so generously donated prizes: Paul Prentice of Prentice-Berry Limited; Paul Heffer of Minden I.D.A. Drug Store; the Rockcliffe Hotel; Lorne Heiss of Carnarvon Electric; Frank McConnell of Labatt's Breweries; Al Mayo of the TD Bank; and Jerry McKelvey of Big Jer's.

Winners of the Carnarvon Electric annual men's bonspiel, left, was the Wyatt Barnes rink, with three members from Wilberforce and one from Minden. Members of the rink included, from the left, Glen Clarke second, Peter Jennings vice, Wyatt Barnes skip and Mike Amyotte, of Minden, lead. Runner-up was the Neil Burk rink, above. Members included Neil Burk, skip, upper left, Dwight Thomas second, upper right, Ken Fielding lead, left and Jerry McKelvey vice.

Roodenburg attends realty conference

Bill Roodenburg, President of the Haliburton District Real Estate Board was his Board's primary delegate to the annual conference of the Ontario Real Estate Association (OREA) in Toronto this week.

Roodenburg joined the presidents of 47 other local real estate boards which make up the Association and which represent organized real estate in the major towns and cities of Ontario.

This year's conference was held at the Sheraton Centre Hotel in downtown Toronto. More than 500 delegates in total attended the two-day affair held February 19 and 20. In addition, more than 1,300 sales representatives attended a special one-day "Salesorama" mini-conference at the Sheraton Centre Hotel on Monday, February 20.

Speakers at the conference included Michael Wilson, MP, Federal Tory

economic advisor who addressed the February 15 budget, author/psychologist Richard Flint who looked at the question of family relationships and strains in the unique environment of commission income, Bill Dickson, President of the Canadian Real Estate Association

(CREA), and a number of workshop speakers. Popular Canadian actor/comedian Steve Weston hosted a take-off on TV's "Family Feud".

On Saturday, February 18, the representatives from the local real estate boards participated and voted in one of the Association's business sessions which elected the 1984 Board of Directors. In all, the Ontario

Real Estate Association represents nearly 28,000 brokers and sales representatives in Ontario, more than

80 percent of all real estate licencees in Ontario and more than 50 percent of all licencees in Canada.

This quilt featuring Canada's Centennial Symbol and the coats of arms of the ten provinces and two territories, is one of many on display at the Agnes Jamieson Gallery and Common Room in Minden. The quilts are produced by local artisans and provide an interesting insight into the traditional art of quilting. The show continues until February 27 in conjunction with a display of art by the late Dr. Agnes Jamieson.

Heritage awards to be presented

As part of the celebrations marking the 125th anniversary of the founding of Minden, the municipality will be presenting awards in three different categories.

Under the Heritage Awards program a committee will be presenting framed parchment declarations of appreciation from the municipality in recognition of general service to the

community. As well individuals who have made an outstanding contribution to the community will be similarly honoured.

Educational awards will also be presented to students in the public school system. Municipal pins will be presented to students enrolled in kindergarten through to grade six, in Archie Stouffer Public School and the Victoria Street Public School. All students who contribute essays or artwork will be awarded the pin.

An essay competition will be held for students in

More above

from below grades 7 - 13. Thirty prizes will be awarded to winners of the competition. Public speaking and artistic competitions may also be held.

Business and residential awards will be presented to people who have made improvements to their property which reflects the heritage theme.

An estimated budget of \$3,000 was approved by the

municipal council on February 9.

The Celebrations Committee that made the proposal to Council notes that the estimated budget figures reflect a maximum amount foreseen. Actual costs will depend upon participation in the projects and funds remaining after the projects are completed will be returned to the municipality.

ONTARIO GOVERNMENT NOTICE

Wheat payments announced - Ag. Report -

A stabilization payment for the 1982 Winter Wheat crop of \$34.17 per tonne was recently announced by Agriculture Canada. It was indicated that cheques would be received by producers by the end of January.

However, the Agricultural Stabilization Board encountered several problems in processing these cheques, so that they have been delayed.

The present schedule should see these cheques arriving in the producers' hands some time between the middle and the end of February. Producers who have not received their cheque by the end of the month could contact the Agricultural Stabilization Board directly, by phoning 1-613-593-6671.

Corn producers receive stabilization payments
Grain corn growers in

Did You Know?

by Ruth Foster

This year in your interim tax bill, you will receive a Haliburton County Information Centre flyer. Each township office in Haliburton County, (except Dysart et al - they will include the flyer in the final 1984 tax bill) has been kind enough to help us provide you with this County-wide mail-out. Without their co-operation and support and the help of the dedicated volunteers we have working with us at the County Information Centre, this would not have been possible.

We designed the flyer so that if you keep it by your telephone, or in your wallet or purse, then it could become one of the most useful items in your home.

The next time you need the telephone number for O.H.I.P., or some help with Government Pensions, or perhaps even a list of Day Care Centres in our county, you will always have our telephone number and or address handy.

The flyer also provides you with our office hours and a brief description of the services we offer to all the people of Haliburton County.

We hope you will keep it handy and use the Haliburton County Information Centre soon. We are open Monday through Friday, 10:00 a.m. till 4:00 p.m. We are located in the Drag River Municipal Building in Haliburton (across from Emmerson Lumber) and our telephone number is 457-2733.

And remember, you will never know the answer until you ask the question.

Ontario are now eligible to receive a substantial stabilization payment for their 1982 crop.

Agriculture Canada have announced that the Agricultural Stabilization Board has reversed an earlier decision that no federal stabilization payment would be issued. This is the result of representations made to the board by the new Ontario Corn Producers' Association which had data showing that the average price received by corn producers during the '82-'83 crop year was substantially lower than that initially published by the Board last fall.

As a result, all commercial corn sales made from September 1, 1982 through August 31, 1983 may be eligible for a federal payment of \$4.48 per tonne. In addition, corn producers enrolled in the Ontario Stabilization Program will receive an additional \$1.74 per tonne over and above the \$3.97 per tonne announced last November.

Application forms for the federal stabilization payment are now being printed and will be available in the near future through County Agricultural Offices.

New agricultural engineer arrives

David Trudell has joined the staff of the Lindsay Agricultural Office to serve as Agricultural Engineer. David's territory includes the counties of Durham East, Peterborough, Victoria and Haliburton and Muskoka District.

David was raised on a cash crop farm in the Tilbury area of Kent County where he was active in local 4-H and Junior Farmer Programs. He graduated from the University of Guelph in 1977 with his Bachelor's Degree in Agricultural Engineering.

Following graduation, David worked as a design engineer for a large farm building company in western Ontario, and then spent three years operating his own farm building construction business. For the past year, he worked as a site engineer for the large Kellogg-Salada Ltd. development project in London, Ontario.

While a student, Dave spent two summers working with the Ministry of Agriculture & Food as the summer assistant to the Agricultural Engineers in Glengarry-Stormont Coun-

ties and in Wentworth-Haldimand Counties.

We are pleased to welcome David Trudell to the Agricultural extension team working from the Lindsay Agricultural Office.

Events this week

February 22 & 23 - O.C.A. Annual Meeting, Skyline Hotel, Toronto.

Wednesday, February 22, 9:30 a.m. - R.S.V.P. Leadership Training Program, for executives of farm organizations in Victoria, Haliburton & Peterborough Counties. Lindsay Agricultural Office. By pre-registration only.

Thursday, February 23, 11:00 a.m. - Victoria County D.H.I. Association Annual Meeting in the form of a farm tour starting at Campbell & David Hamer's, Oakwood, and proceeding to Ray VanSchaik's.

Thursday, February 23, 10:00 a.m. - Barkey Grain & Feed Soil & Crop Information Day at Oakwood Community Centre. Please pre-register to reserve lunch.

Thursday, February 23, 10:00 a.m. - "Improving Market Hog Indexes" Meeting, Lindsay Agricultural Office. Pork Producers welcome.

Special showing for seniors

by Marie Wallace,
Co-ordinator

All seniors in Haliburton County are invited to attend a special musical entitled "No No Nanette". This invitation is extended to you by the students of our Secondary School who are producing this show.

The one-hour version will

be held on Tuesday, February 28 from 1:00 to 2:00 p.m. at the Haliburton Highlands Secondary School in Haliburton. The bargain price is \$1.00.

I am hoping that many of you will attend, I'm sure you'll enjoy the production and by your presence you will be encouraging our young people. We need intergenerational activities

and this is an opportunity to give your support to students who are participating in worth while endeavours.

Plan now to come and invite your friends as well. Please call Home Support at 457-2941 for a reservation as soon as possible so that sufficient seating is arranged.

COX'S APPAREL
Main Street, Minden

286-1331

A panel of three judges compare notes as they taste test 15 of the 125 recipes submitted for the Dixie Lee chicken barbeque sauce contest. Don Popple, left, Art Dawson and Deborah Dart sampled the preparations Monday at the Haliburton Dixie Lee outlet. The winner of the \$500 cash prize, which gives the local stores exclusive right to the recipe, was Tammy Mace of Minden. Her "Super Quick Bar B Q Sauce" should be available this week at the Minden and Haliburton outlets.

Minden W.I.

Mrs. Lyman Cox read a verse "A Laugh" to open the Minden Women's Institute meeting of February 15 at the Library-Cultural Gallery.

There were 22 members and two guests present, with some having homemade Valentines which were exchanged later in the meeting. We also welcomed a new member Gwen Cox. The usual reports were given and Mrs. A. Coulter brought Mrs. Wm. Moore's report of twelve cards sent since the last meeting.

Collections for Card Fund and Pennies for Friendship were taken. Miriam Barnes and another member will attend Leader's Training Course on "More Cents Than Dollars" in March.

Mrs. L. Cox is our delegate to Officer's Conference in May at Waterloo. The District may plan a bus trip to Erland Lee Home on June 4th (W.I. Day) and are asked for Jams and Jellies for sale there.

Delegate to Library Cultural Centre Main Committee is Mrs. L. Cox. A Committee of Branch Directors and Mrs. L. Cox and Mrs. C. Lacey will plan our anniversary day June

20. Our Annual Bus trip will be to Winter Fair in the fall with details later.

After the closing, two

carloads of ladies from Norland W.I. joined us and we watched the movie "It's Easy to Swallow" and an auction sale of gifts went on while we enjoyed the delicious lunch served by the committee. President, Mrs., Harold Crane of Norland,

thanked us, saying how much they enjoyed their visit and a chance to see the Art and Quilt displays on at that time.

Next meeting will be at the same location March 21st with all ladies welcome.

"WHERE THE ACTION IS"

Katherine Daniel celebrates 99th

Minden resident Katherine Daniel celebrated her 99th birthday this past Monday.

A native of the Coboconk area, she was the daughter of Christina and Moses Moffatt, who operated a farm in that area.

She married James Daniel in 1906. The couple operated the Daniel's Garage in Fenelon Falls until her husband's death in the early 1940's.

Mrs. Daniel then purchased the Oasis Restaurant in 1950. The eatery, located on Minden's Main Street, is now known as the K & W Restaurant. She operated the restaurant until 1959 when it was sold. However, the retirement life was not for her, and in June 1960 she purchased the Cameo Restaurant, since closed.

Mrs. Daniel has two children, one son Jack, deceased, six grandchildren and eight great-grandchildren. She lives with her daughter Irene.

Q: Who was the most popular singer in prehistoric times?

A: Dono Saur (Dinah Shore).

Q: What do you get when you cross a vampire with a Volkswagen?

A: A creature that attacks small cars and sucks out their gas and oil.

Q: Mom, when will we get a garbage can?

"Shut up, kid, and keep eating."

Q: What person helps bring up a lot of people?

A: An elevator operator.

Q: Who invented the first airplane that didn't fly?

A: The Wrong Brothers.

Q: What didn't Adam and Eve have that everyone else in the world has had?

A: Parents.

around the county town

Call 286-1288 — 9 a.m. - 4 p.m.

We received a call from Gerry Feltham of the H.A.V.E. Committee and he informs us that the group are hoping to arrange a "Walk for Wells" later this year. The group will be meeting this Thursday in Ingoldsby and are anxious to meet with anyone who would be interested in helping to arrange this event. For more information please call Mr. Feltham at 286-1647. This is for a very worthy cause and will also be very good for your health.

Sincere sympathy to the family and friends of Mrs. Laura Mole who passed away last week.

Our sympathy also to Mrs. Phyllis Campbell on the loss of her brother Peter Grice of Oshawa early in February. Mrs. Campbell passed the news of his death to her friend Mrs. Leona McIntosh asking her

to pass it to us.

Tuesday March 6 is St. Paul's Anglican Church annual pancake supper to be held at the church. Admission is \$2.50 for adults, \$1.50 for children 6 to 12 and preschoolers 5 and under are free. The ladies will begin serving at 5 p.m. until 7 p.m.

Visitors with Jeanne and Milton Sears last Saturday were Reg, Carol and Karen Leaman of Keswick.

We remind you that Wednesday March 7 at 7:30 p.m. is the annual card party at Hyland Crest Senior Citizens' Home sponsored by the Auxiliary. The party will feature euchre and bridge and prizes will be awarded. Refreshments will be served and admission is \$1.00.

The winners of the weekly card party at St. Paul's

Anglican Church were, for cribbage: Vera Ward and Joyce Hewitt. For euchre - lone hands on a cut, Peggy Brown. Other winners were Diane Warnes and Freda Stacey.

Congratulations to Patricia Walker of R.R. 1,

Minden who was the winner in the Kinetite Quilt draw.

The annual meeting and dinner of Minden Red Cross Society will take place Wednesday March 28 at the Curling Club. There will be a social hour at 6 o'clock and dinner will be served at 7 o'clock. The guest speaker will be P. Edgar Buchan, president of the Ontario Division of the Red Cross

and tickets at \$11 per person are available at Minden IDA Drug Store.

The Club 35 card party winners for this week are, High Men - George Alsop; High Women - Minnie Dawson. Most Lone Hands

- Bruce Cummings. Winner of the 50-50 draw was Walter Ackerblade and other winners were, May Hodgson, Mary Stevenson and Murray McGuire.

Visiting with Cliff and Jean Lacey for a few days last week were their son Clifford and grandsons Derek and Darren of Orangeville.

Back a Fighter with Easter Seals

NOTICE

IN THE MATTER OF the Municipal Act; and IN THE MATTER OF a proposed By-law of the Corporation of the Townships of Anson, Hindon and Minden to stop up, close and convey to the adjoining landowner part of the 66 foot 'unopened' Original Shoreline (Marine) Allowance for Road around the shoreline perimeter of Canning Lake.

NOTICE IS HEREBY GIVEN pursuant to Section 301 (1) of the Municipal Act R.S.O. 1980, as amended, that the Council of the Corporation of the Townships of Anson, Hindon and Minden at its regular meeting to be held in the Municipal Council Chambers, Milne Street, Minden on March 8, 1984 proposes to consider and, if deemed advisable to pass a By-law to stop up, close and convey the above-noted portion of road allowance more particularly described as follows:-

All and singular that certain parcel or tract of land and premises situate, lying and being in the Township of Minden in the County of Haliburton and being composed of part of the original allowance for road along the shore of Canning Lake in front of Lot 9 Concession 1 in the said Township of Minden shown outlined in red on a draft plan of survey prepared by H. Curry Bishop, O.R.S. in 1979.

AND FURTHER TAKE NOTICE that before passing said by-law at the meeting to be held at the time and place mentioned, the Council shall then and there hear in person or by his Counsel, Solicitor or Agent any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at MINDEN this 8th day of February, 1984.

(Mrs.) Elinor Burke, A.M.C.T.,
Clerk-Treasurer,
Townships of Anson, Hindon & Minden,
Box 98, Minden, Ontario K0M 2K0
Phone (705) 286-1260

The plan of survey referred to herein is available for perusal at the Municipal Offices during normal office hours.

senior league

by Bert Harrison

A very interesting service in the chapel Sunday night, when the Thompsons come to do their parts everyone turns outright. Well readers much milder weather what a relief it brings. We wouldn't be surprised if we get a real early spring.

Linda showed us three movies Monday night, they were really fine, Upper Canada Village, Saddle Making, and Spring Time.

Rev. Wicks of Minden Gospel Church was to have taken the service in the chapel Tuesday but didn't come so guess he was away, so Doris took over and did a good job too. We can always depend on the Robertson sisters, no matter what the problem they always see us through. We welcome Marjorie Shuyler back to Hyland Crest, she has been in hospital, Doctors taking test. Lola Prentice is wearing a sunny smile no wonder by the way, she has a great grandson born this Valentine's day. Also on this day we had a lovely buffet of Chinese food, just help yourself to all you want, it was really good. Tuesday afternoon we played the guessing game again this time it was the ladies against the men the questions were really tough but all in fun. When the game had ended the Ladies had won. We told you some time ago Edith Welch had a real bad fall, now they find the hip is fractured nor just bruised at all. Congratulations to Percy Drysdale we would like to say who was eighty

years young on Valentine's day.

Tuesday night is music here but it was so foggy our musicians didn't appear. The Lady members of the Salvation Army from Haliburton served a tasty lunch this Thursday, we were glad that we were there, they led us in a sing song also closed with prayer. We always thought the Army grand always there when needed to give a helping hand.

The Bingo was conducted here Thursday night by Peter Dollo and Rick Hamilton, thank you boys for coming and a job well done. We would like to tell you in this letter, we are blessed to have Mrs. Corby back from Hospital we hope she is feeling better.

Friday morning down at fun and fitness, we had some real sports to help kick the balls around the gym, Karen Little, Andrew Siddon and Teresa and David Short, they also came along Friday afternoon, sang two numbers for us and helped out in the sing song.

On My Way To Work
Dear Lord excuse my heavy boots
My dungarees and cap.
I'm praying on my way to work
For I'm a working chap.
The bus is just ahead dear Lord
We surely have time to pray.
For strength to be a better man
Than I was yesterday.

IN MEMORIAM

HARRISON: In loving memory of Walter J. Harrison who passed away February 26, 1979.

I dream of you dear loved one
And see your smiling face,
And know that you are happy
In our Father's chosen place.

Always remembered by his wife, Simone.

IN MEMORIAM

HAMPSON, JOHN F.S. - In loving memory of my dear husband who passed away February 21, 1983.

So many times I've needed you,
So many times I've cried,
If love could have saved you
You would not have died,
dear,
The things I feel most deeply
Are the hardest things to say,
My dearest John I loved you
in a very special way,
If I could have a lifetime wish
One dream come true,
I'd pray to God with all my heart,
For yesterday and you.

Remembered by wife
Melissa and families.

NOTICE

IN THE MATTER OF the Municipal Act; and
IN THE MATTER OF a proposed By-law of
the Corporation of the Townships of Anson,
Hindon and Minden to stop up, close and
convey to the adjoining landowner part of the
66 foot 'unopened' Original Shoreline
(Marine) Allowance for Road around the
shoreline perimeter of Lake Kashagawigamog.

NOTICE IS HEREBY GIVEN pursuant to
Section 301 (1) of the Municipal Act R.S.O.
1980, as amended, that the Council of the
Corporation of the Townships of Anson,
Hindon and Minden at its regular meeting to
be held in the Municipal Council Chambers,
Milne Street, Minden on March 22, 1984
proposes to consider and, if deemed advisable
to pass a By-law to stop up, close and convey
the above-noted portion of road allowance
more particularly described as follows: - All
and singular that certain parcel or tract of land
and premises situate, lying and being in the
Township of Minden in the County of Haliburton
and being composed of part of the original
allowance for road along the shore of
Kashagawigamog Lake in front of part of Lot
18, Concession 2 in the said township of
Minden more particularly illustrated on Plan
of survey registered in the Registry Office of
the Registry Division of Haliburton as Part 1
on Plan 19R-2283.

AND FURTHER TAKE NOTICE that before
passing said by-law at the meeting to be held
at the time and place mentioned, the Council
shall then and there hear in person or by his
Counsel, Solicitor or Agent any person who
claims that his or her land will be prejudicially
affected by the said By-law and who applies to
be heard.

DATED at MINDEN this 22nd day of
February, 1984.

(Mrs.) Elinor Burke, A.M.C.T.,
Clerk-Treasurer,
Townships of Anson, Hindon & Minden,
Box 98, Minden, Ontario. KOM 2K0.
Phone (705) 286-1260

The plan of survey referred to herein is available for perusal at the Municipal Offices during normal office hours.
